# Audioception

**MODEL 4852**

**MADE IN CANADA**

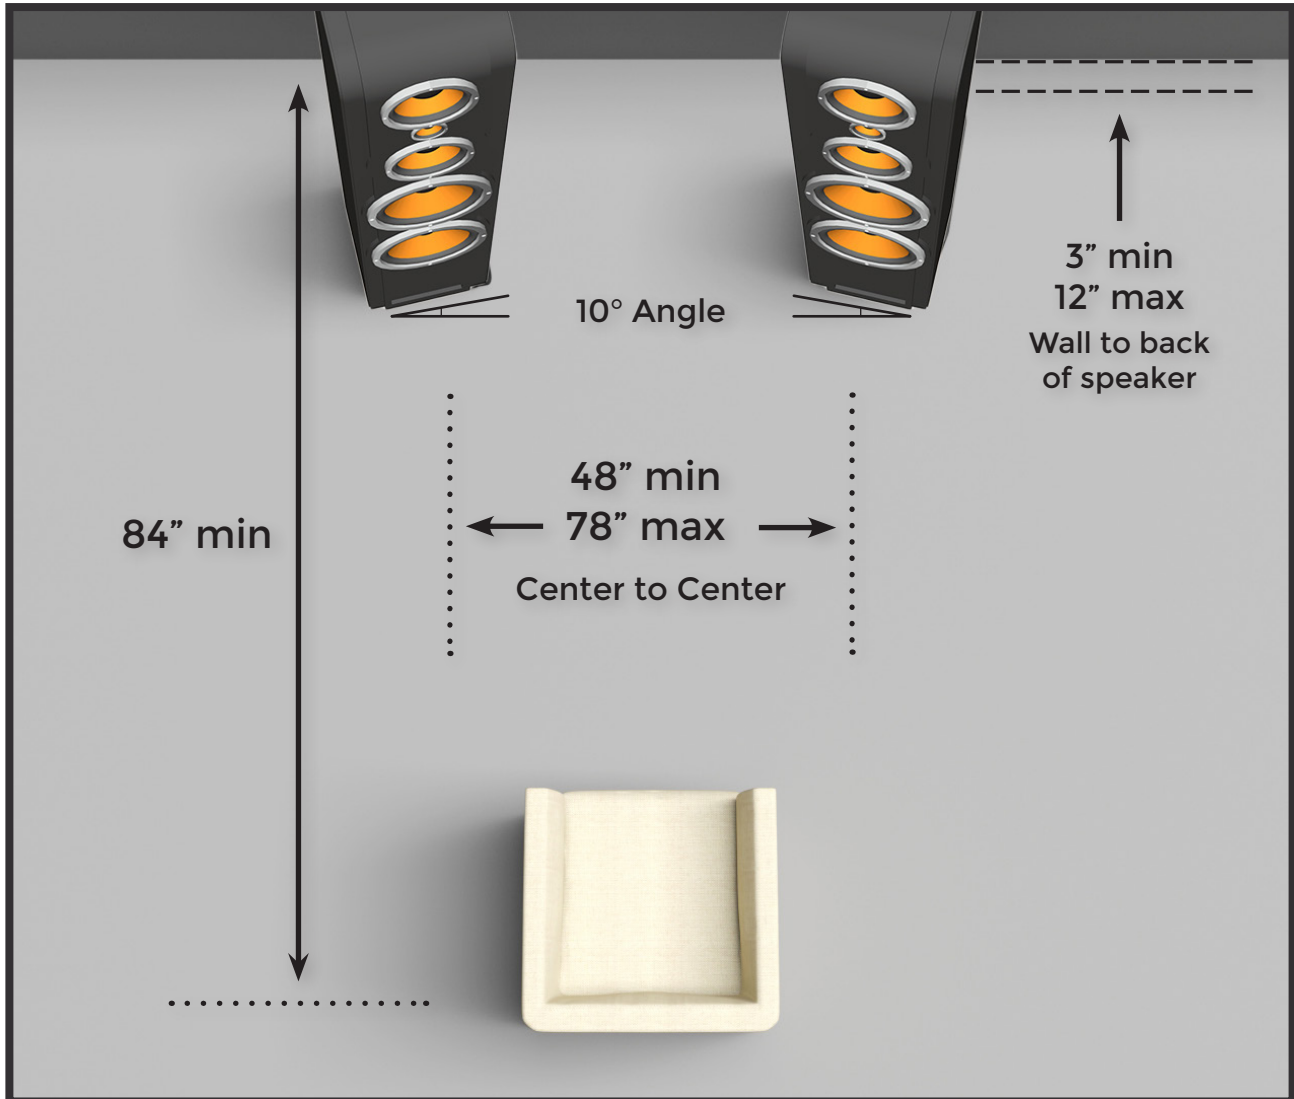

1 of the 5 human senses is hearing. Audioception products are designed to excite your senses with not only hearing, but feeling and connecting with the music you have grown to love. Effortless to drive, detailed, accurate with excellent staging, capable of quality musical reproduction. Founded by my love of Music, 2 years of R & D, Model 4852 makes it to market with a limited production run of 250 pairs. Designed with small spaces in mind and larger than life sound quality at a great value.

Backed up with a 10 year parts and labor warranty. We stand behind our products 100%.

# SETUP INFORMATION

## Notes:

Listening positions greater than  $120^\circ$  from wall do not require the speakers to be aligned inward.

The Above diagram and dimensions are only guidelines, you may change them as much as you want until you find the correct setup for your rooms shape and size.

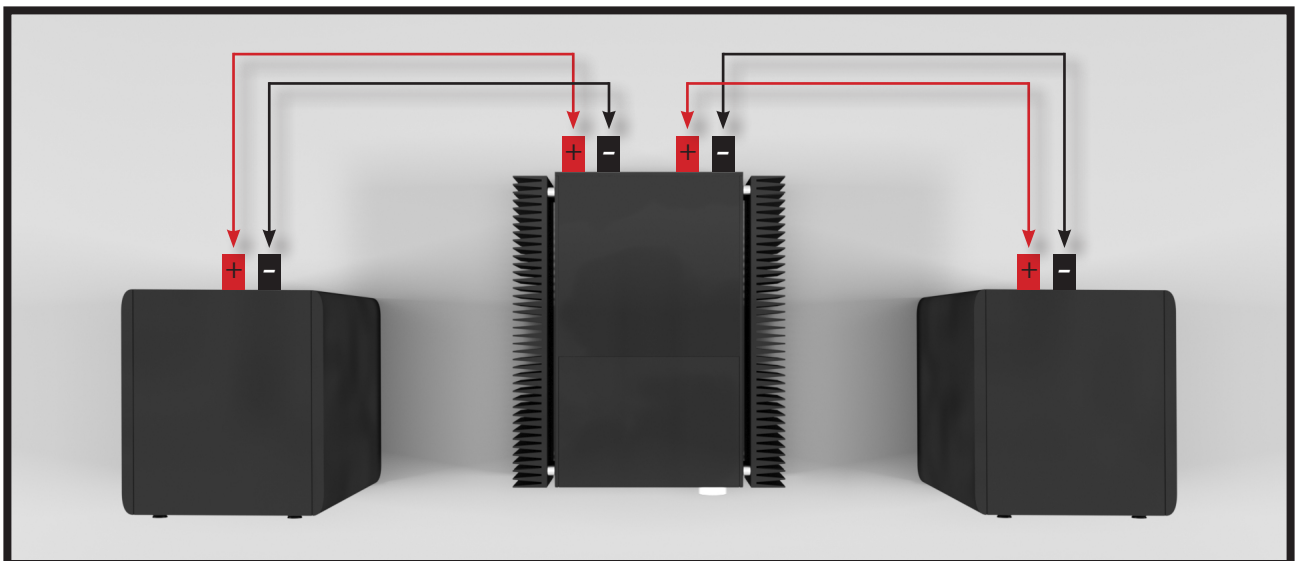

## SPEAKER HEIGHT SETUP

Speakers are positioned on floor as displayed in above diagram and do not require stands.

## SPEAKER WIRING

**Note:** Only make speaker cable connections when the amplifier is powered off.
