Audioception

MODEL 861

MADE IN CANADA

1 of the 5 human senses is hearing. Audioception products are designed to excite your senses with not only hearing, but feeling and connecting with the music you have grown to love. Effortless to drive, detailed, accurate with excellent staging, capable of quality musical reproduction. Founded by my love of Music, 2 years of R & D, Model 861 makes it to market with a limited production run of 250 pairs. Designed with small spaces in mind and larger than life sound quality at a great value.

Backed up with a 10 year parts and labor warranty. We stand behind our products 100%.

SETUP INFORMATION

Notes:

Listening positions greater than 120° from wall do not require the speakers to be aligned inward.

The Above diagram and dimensions are only guidelines, you may change them as much as you want until you find the correct setup for your rooms shape and size.

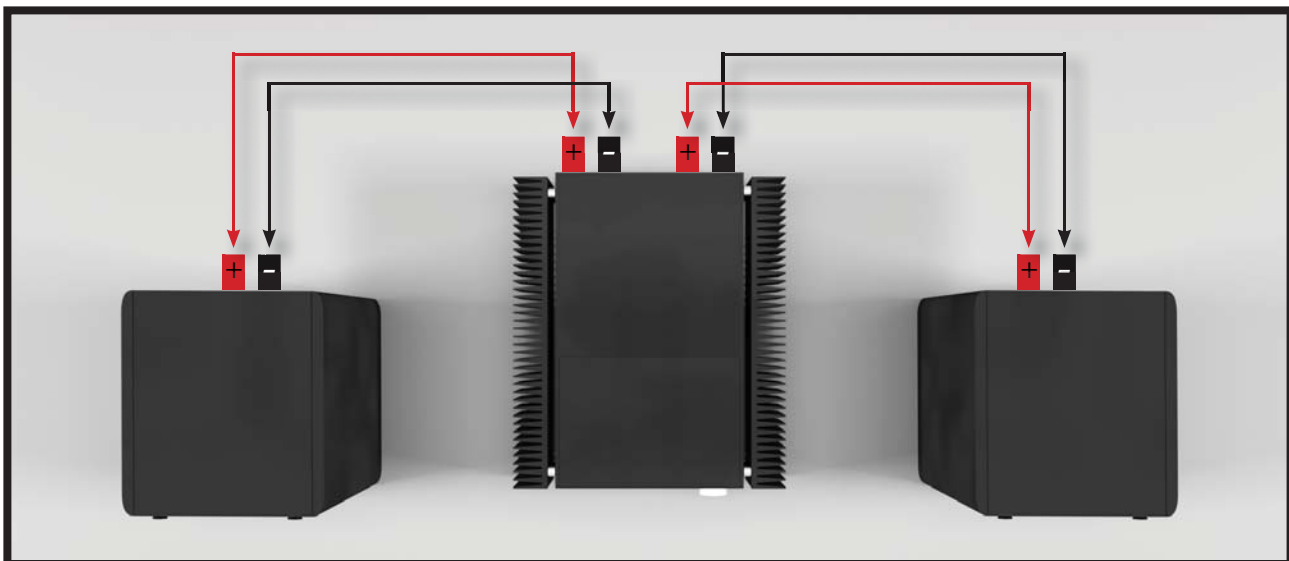

SPEAKER HEIGHT SETUP

Use speaker stands or sit speakers on top of floating wall shelf or cabinet firmly secured due to weight of speakers.

SPEAKER WIRING

Note: Only make speaker cable connections when the amplifier is powered off.
